

UCHI's mission is to develop relationships between the US and Ukraine on cultural, educational, and humanitarian levels. It also serves to develop cross-cultural understanding between the peoples of the US and Ukraine. It serves three constituencies: Ukrainians in Ukraine seeking to build democratic structures in Ukraine, Ukrainians in America, and others interested in learning about modern Ukraine.

Tour Ukrainian Pittsburgh 2.0

Tour Ukrainian Pittsburgh!

© Ukrainian Cultural and Humanitarian Institute (UCHI) April 2020 [prev. July 2007]

Updated and in full color! We first published “Tour” in 2007 to provide a historical and cultural context to Ukrainian settlement in the City of Pittsburgh and surrounding suburbs. Four different tours provide sites to see, directions, and background information. Some can be walked, others must be taken in an automobile. The booklet contains a historical sketch of Ukrainian settlement in and around Pittsburgh, plus listings of Ukrainian churches and Ukrainian community organizations.

Ця одна із останніх публікацій УКГІ дає уяву про історичне та культурне оточення українського поселення в місті Пітсбурзі та довколишніх околиць. Чотири різні екскурсії надають інформацію про культурно-історичні місця, вказівки напрямів руху до цих місць, а також довідкову інформацію. Деякі екскурсії можуть бути здійснені пішки, а інші лише на

автомобілі. Цей буклет включає історичну справку про українське поселення в Пітсбурзі і навколо міста, а також перелік українських церков та громадських організацій.

Chornobyl’

April 26, 2021 marked the 35th year anniversary of the accident at the Chornobyl’ nuclear power plant—considered the world’s worst accident at a nuclear power plant. Pittsburgh-area photographer Mike Haritan has traveled to Chornobyl twice in the past five years to provide professional quality photos of the area for the historical record. During his first trip, he found a certified guide to take him through Chornobyl and took about 800 photos. He hopes that through his photos and lectures he can help inform people in the US and abroad so they can be more prepared should another nuclear disaster strike. He also wanted to reach Ukrainian church and social service groups, as well as universities and high schools. Since his project began in 2016, he has delivered his presentation on the Chornobyl nuclear disaster and its consequences over 25 times to 15 different Ukrainian groups, and has spoken to chemical engineering, environmental science and AP Physics students, as well as at the Chautauqua Institute in New York state. During his 2018 trip, he met with six women in their 80s and 90s who have returned to the document the lives of the now fewer than 130 older women who returned to their homes in the exclusion zone shortly after the disaster in 1986. — *Haritanphotography.com* - Фотографії та аналіз з Чорнобиля.

Next Steps

On-Line Archives

Coming soon, UCHI will have an online archive, which visitors will be able to use to conduct research into the Ukrainian community and those Ukrainians who settled in the western Pennsylvania area.

“Welcome to America—Ukrainian Language Immigrant Handbook Third Edition”

First published in 2005, this is UCHI’s third edition of a unique resource to assist Ukrainians immigrating to America.

Culture Room

Still in the conceptual stage, UCHI is planning for a culture room to house its extensive archives collection and to display items of significant cultural importance. Stay tuned for more details!
